

Nikat Desta

Software Developer

Addis Ababa, Ethiopia | +251 936 911 927 | nkatdesta24@gmail.com
github.com/NkatDesta | linkedin.com/in/nikat-desta

PROFESSIONAL SUMMARY

Computer Science graduate (BSc, Addis Ababa University) with hands-on experience building software in Java, C++, and Python, and growing expertise in web development using Laravel and Django. Proven ability to design and deliver full-stack projects, from relational database systems to real-time web platforms, both independently and in team settings. Completed a backend development internship applying agile workflows, version control, and database management in a production environment. Actively seeking an entry-level Software Developer role to apply strong programming fundamentals, quick learning ability, and a collaborative mindset to real-world engineering challenges.

EDUCATION

BSc in Computer Science Addis Ababa University	02/2022 - 06/2026
--	-------------------

CERTIFICATIONS

Backend Web Development ALX Africa	05/2024 - 09/2025
Data Analysis Fundamentals Udacity	07/2024 - 09/2024
AI Augmented Professional Development ALX Africa	03/2024 - 05/2024

EXPERIENCE

Software Developer Intern - Collaborated with a team of developers and mentors to build websites in a dynamic software development environment. - Gained hands-on experience in backend development and database management. - Strengthened teamwork, communication, and agile workflow skills; refined coding practices and troubleshooting through mentorship.	07/2025 - 09/2025
--	-------------------

TECHNICAL SKILLS

Programming Languages: Java, C++, C#, Python
Web Development: HTML, CSS, PHP, Django, Laravel, Next.js, Node.js
Database: MySQL, SQLite
Version Control: Git, GitHub

PROJECTS

Banks Ethiopia Currency Exchange System

- Web platform comparing real-time currency exchange rates across Ethiopian banks; built with Laravel, MySQL, and JavaScript for dynamic UI interactions.

Fitness Tracker System

- Web application for tracking workouts, nutrition, and progress, built with Django, Django REST Framework, and SQLite.

Bookstore Database System

- Relational database project managing books, customers, and sales records using MySQL, focused on efficient data storage and retrieval.

School Communication System

- Java application (OOP) for managing communication between school administrators and guardians.
